<https://safeseaproject.medium.com/>

**our journey is to answer a simple cause: Save the Ocean!**

**Mission: Create a World of clean Ocean without Pollution**

## PRESALE

### Phase 1

SafeSea Project proudly announce its first phase to create a **Charity based Decentralized Exchange**, where you can donate to a good cause by just simply doing your daily activities, like swapping your tokens, coins, provide liquidity or stake your tokens in a pool.

In this first Phase, we would like to raise **50,000 USD** for marketing and personel expenses. With this amount we are able to create the DEX and spread the word out in different social media portals.

According to the above mentioned, we are offering **167,000 SafeSea Swap tokens** at the price of **0,3 USD/token** and a **50% bonus** on every sale.

**Minimum buy order is 10 USD, no maximum.**

Each and every presale buyer should send and email to our official email address ([safeseaproject@protonmail.com](mailto:safeseaproject@protonmail.com)) writing down the exact amount she/he is willing to invest. In return we will send the wallet addresses where to send the amount and the total token amount she/he will receive

**Investments can be made with BNB, BUSD and ETH.**

## NEXT PHASES

### Phase 2

Our expert team of developers will create the smartcontract for the DEX. We will implement a sale contract inside, so as soon as the DEX will be implemented to the Binance blockchain, we will announce a **sale of 1,670,000 SafeSea Swap tokens**. Selling this amount of tokens is really important for the future of the DEX because we will provide liquidity with the amount we raise as well as a marketing budget for continuous awareness.

### Phase 3

After token sale is finished we will provide the necessary liquidity for the swap tokens and start the DEX with basic functions.

### Phase 4

Continuous development for extending the functions of the Exchange.

Partnership agreements with similar projects. Finding relevant inventions to make a partnership or cooperation to create and distribute all over the world.
